

SHIKOKU INU

(SHIKO)

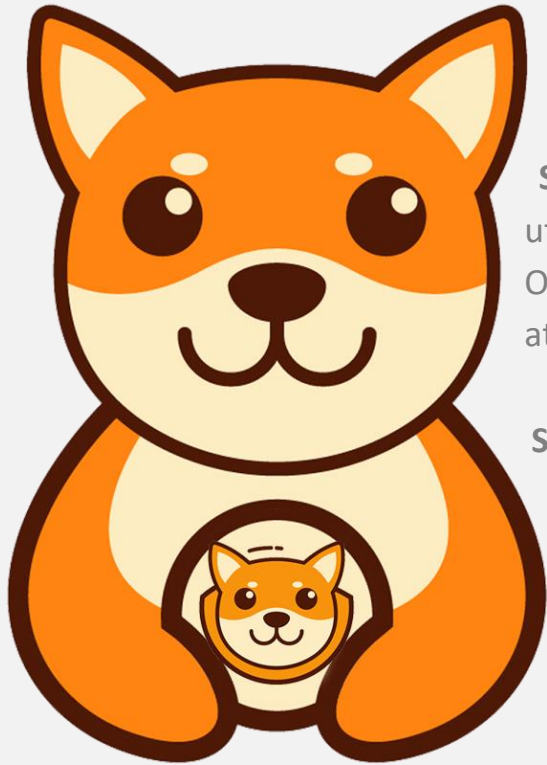

WHITEPAPER

SHIKOKU EXCHANGE

Decentralized All In One Platform

Introduction

SHIKO is a 100% community-driven decentralized utility token that launched on May 12th, 2021. On its first day, it climbed over 6,000% to settle in at a market capitalization of \$900,000.

SHIKO's mission is to provide an easy to use platform to analyze and swap cryptocurrencies. Come join the Shikoku family and travel with us to Mars!

What is SHIKO?

SHIKO is a BEP20 token launched on the Binance Smart Chain on May 12th, 2021. It was created with a clear objective - to provide an all in one decentralized platform to cryptocurrency enthusiasts.

SHIKO will serve as the utility token for the **SHIKO** ecosystem. It can be used for premium features, pay fees on swaps, etc. - Its usage as a utility token is endless. By nature, the **SHIKO** benefits the **SHIKOKU** community by redistributing 5% of each transaction to its holders.

SHIKO also has an automated liquidity add system built in. It takes an additional 5% of each transaction and locks it into the PancakeSwap liquidity pool which facilitates trading.

SHIKO Ecosystem

SHIKO Ecosystem consists of **SHIKO** swap and **SHIKO** DEX Tool.

SHIKO Swap

At **SHIKO** swap, we aim to provide cross-chain swap capability with minimal fees. We will first launch a **SHIKO** <-> **BNB** pair and expand it to other tokens gradually.

SHIKO DEX Tool

The **SHIKO** DEX Tool will be a core feature of the **SHIKO** Ecosystem. We will provide tools for crypto enthusiasts to analyze and monitor the crypto market 24/7 with ease. **SHIKO** will be utilized to drive accessibility to premium features of the **SHIKO** DEX tool. Also we will encourage users to hold and participate in liquidity pools by putting 90% of the promotion fees from the platform into our **SHIKO** liquidity pool.

Down the road, we will be adding additional features to the Ecosystem, such as **SHIKO** NFT! Stay tuned for updates.
